

# Umbrella Canopy Fabric Colour Selection

We're often asked for a list of all the different umbrella fabric colours we have available. It's difficult to provide a complete list because umbrella fabric colours are constantly changing along with fashion trends. This colour chart is an approximation of the range of fabric colours we have available (usually around ninety different colours).

If you have a Pantone (PMS) colour reference please [contact us](#) and we'll check our fabric inventory. Chances are we'll have an exact or very close match. We can also dye a bolt of umbrella fabric to any Pantone colour you specify.

*Pantone matching for umbrella frames and handles also available.*
